Take an exciting virtual adventure with us, as we explore the **Animal Tracks & Signs of Africa**, written exclusively for **WildlifeCampus** by world renowned authors - **Chris and Mathilde Stuart**. Over 1800 pages, featuring hundreds of species; this course takes an in-depth look at tracks, prints, spoor, trails, droppings, feeding signs, kill sites, mud wallowing, rubbing posts, tree scratchings, scent marking, holes, bark-stripping, shed hair, skin & feathers, nests in & out of trees, mammal & invertebrate shelters and skulls. This course will enhance your enjoyment and understanding of the wild, even when no animals are to be seen.

Delivery and assessment of ONLINE courses

All Course content is available **online** but may also be downloaded in PDF format (and easily printed) so you don't have to be **online** to study. No physical product except certificates earned, are posted to students.

All assessment is delivered entirely **online** and is automated. The assessment which we've called "take the test" (top right in each component) consists of between 10 and 50 true/false and multiple-choice questions. There is one test for each of the components of a course. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**
