Our **Anti-Poaching Course** is based upon extensive direct counter-poaching experience and provides a theoretical and detailed background to the prevention of poaching, theft and mutilation of game animals from a game reserve perspective. We explore what Poaching and Anti-Poaching are and the 3 Levels of Poaching. We discuss the Anti-Poaching Unit, how to set one up and the two main options to counter poaching: Active & Passive Prevention. Examine Poaching methods and the Economics of Poaching, Anti-Poaching equipment and the various Anti-Poaching Action Plans together with the Legalities of Anti-Poaching. If you are a reserve owner, conservancy, wildlife or game farm manager; game ranger, game guide, game guard, trails guide or field guide or merely have an interest in this field, this course is for you.
