

We have an entire website dedicated to this specific subject. For full information, visit: www.antipoachingcourse.com

Our **Anti-Poaching Course** is based upon extensive direct counter-poaching experience. It provides a theoretical, detailed background to the prevention of poaching, theft and mutilation of game animals, from a game reserve perspective. We explore what poaching and anti-poaching are and the 3 levels of poaching. We discuss the anti-poaching unit, how to set one up and the two main options to counter poaching: active & passive prevention. Examine poaching methods and the economics of poaching, anti-poaching equipment and the various anti-poaching action plans together with the legalities of anti-poaching. If you are a reserve owner, conservancy, wildlife or game farm manager; game ranger, game guide, game guard, trails guide or field guide or merely have an interest in this field, this course is for you.

Delivery and assessment of Paper-Based courses

Paper-Based courses are completed in a paper-based/printed format. Students are sent their course material by post, for collection at their nearest post office/PostNet. Assignments are then completed by the student in his/her own time and sent in for manual marking by email. These assignments (one assignment per guide book) constitute the full assessment and testing requirements for our courses. **There are no final exams to complete** and there is **no graduation ceremony**.

In order gain a certificate, all assignments must be successfully completed with a pass mark of **65% required**. Should you not achieve the 65% requirement, you will be requested to re-submit the assignment/s until you pass.
