

Our **Advanced Animal Behaviour Courses** were written by the world-renowned ethologist, Professor Richard Estes. These are the most comprehensive courses of their kind. Featuring line drawings, photographs, tables, graphs, references and assessment questions. This is everything you ever wanted to know about the behaviour, biology and ecology of African carnivores, herbivores and primates. Should you wish to buy the entire series, you'll be entitled to a further **25 % discount**, please enquire before you purchase.

### Delivery and assessment of **ONLINE** courses

All Course content is available **online** but may also be downloaded in PDF format (and easily printed) so you don't have to be **online** to study. No physical product except certificates earned, are posted to students.

All assessment is delivered entirely **online** and is automated. The assessment which we've called "take the test" (top right in each component) consists of between 10 and 30 true/false and multiple-choice questions. There is one test for each of the components of a course. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**

## **Module # 1 – Introduction to Carnivores**

**Component # 1** – Introduction to Carnivores

## **Module # 2 – Genets, Civets, Mongooses**

**Component # 1** – Family Viverridae

**Component # 2** – Genets
