Birding by habitat

Our birding by habitat course will teach you everything you need to know about identifying birds and the habitats they live in. This course will help you identify birds by habitat, whether in a forest or on the beach.

Once you've completed the course, you'll be able to identify all kinds of birds from their habitats and have an easier time planning where and when to go bird-watching.

This course is suitable for anyone who has an interest in nature and wildlife, whether it's a hobby or a career choice. The course has been designed so that even beginners can easily follow along while still providing enough depth for those who are more experienced.

Course type

The WildlifeCampus courses are online courses. All course content is available **online** but may also be downloaded in PDF format (and easily printed), so you don't have to be **online** to study.

There are **no formal test questions** for this course.

Duration

Average 1-3 weeks. There are no deadlines; you may complete courses at your own pace.

Certification

This course is **free for students to access and complete** after registering on our website. However, if required, a digital certificate may be redeemed at a cost of **R 250** per free course. Upon graduation, we will automatically contact you with the option to redeem a certificate or not. *** Redeeming a course certificate is optional, not compulsory.**

How to access

YOUR FREE COURSES

#01

REGISTER

It's free! Visit:
www.wildlifecampus.com

(Top left)

#02

LOG IN

Log in and go to your "my courses" page. Here, you will see the full list of ALL the online courses we offer – including a FREE component in each, for you to view and try – no certificates are issued for completing free components.

#03

SCROLL DOWN

Scroll down to the free courses (closer to the bottom of the list). Click open a course and begin! Full instructions on how to complete the course/s will be found on the very first pages of each course.

#04

ENJOY!

Module # 1 - The basics of birding
