Capture, care and management of wildlife

Course info and getting started

Our capture, care and management of wildlife course is the definitive guide and reference to African game capture, translocation and the holding of game in temporary captivity. Written by world-renowned game capture expert, Mike la Grange, this is certainly one of the best-written and most interesting courses ever offered by WildlifeCampus.

Course type

The WildlifeCampus courses are online courses. You can download the course content in **PDF format**, so you do not need to be online to study (you will need to be online to take the tests, though).

There is **one test for each component** of a course. Tests are **multiple choice** and **not written tests**. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**

Duration

Average 6-9 months. There are no deadlines; you may complete courses at your own pace.

Certification

Upon completion of the course, you'll receive an industry-recognised digital certificate demonstrating your commitment to upskilling yourself.

Help

If you need any assistance, please feel free to email us anytime! info@wildlifecampus.com

We also have a **WhatsApp line** (office hours only): **069 177 9345**

How to get started?

1

Register

Register on our website
