

This course examines the trends toward game ranching, the upfront costs, ongoing revenue & expenditure, infrastructural expenses, profitability trends and profit drivers of game ranching. Its concluding module investigates conservancies, game management and the ethics of running a successful, profitable and sustainable game ranch. Applicable to the dedicated wildlife enthusiast, prospective game farm investor and current game ranch owner, this course is a must for those seeking the realities of starting and running a game farm, game ranch or conservancy.

Delivery and assessment of ONLINE courses

All Course content is available **online** but may also be downloaded in PDF format (and easily printed) so you don't have to be **online** to study. No physical product except certificates earned, are posted to students.

All assessment is delivered entirely **online** and is automated. The assessment which we've called "take the test" (top right in each component) consists of between 10 and 30 true/false and multiple-choice questions. There is one test for each of the components of a course. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**
