

The growing need for more detailed knowledge on **Intensive Production of Wildlife** on small and large reserves, provided the stimulus for producing this course.

It is based upon extensive practical experience and provides a detailed, theoretical insight into the requirements of setting up and running a successful intensive wildlife production facility on game reserves and conservancies. Covering: Elephant, Black and White Rhino, Buffalo, Eland, Roan, Sable, Kudu, Nyala, Impala, Bushbuck, Springbok, Duikers, Steenbok, Wild Dog, Crocodile and Ostrich.

Each species is examined from their ecology, habitat and activity, behaviour, facilities, hand-rearing calves, feeding in captivity, diseases and disease conditions, capture, transportation, domestication, economics, legislation and management. If you are a reserve owner, conservancy, wildlife or game farm manager; game ranger, game guide, game guard, trails guide or field guide or merely have an interest in this field; this course is a logical and practical guide for you. The course was written in conjunction with the renowned conservationists and environment scientists, Professors J. du P. Bothma and N. van Rooyan.

Delivery and assessment of ONLINE courses

All Course content is available **online** but may also be downloaded in PDF format (and easily printed) so you don't have to be **online** to study. No physical product except certificates earned, are posted to students.

All assessment is delivered entirely **online** and is automated. The assessment which we've called "take the test" (top right in each component) consists of between 10 and 30 true/false and multiple-choice questions. There is one test for each of the components of a course. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**

Module # 1 – Large Herbivores

Component # 1 – Elephant

Component # 2 – White Rhinoceros

Component # 3 – Black Rhinoceros

Component # 4 – African Savanna Buffalo

Module # 2 – Large Antelope

Component # 1 – Eland

Component # 2 – Roan Antelope

Component # 3 – Sable Antelope

Component # 4 – Greater Kudu

Component # 5 – Nyala

Component # 6 – Impala

Component # 7 – Bushbuck

Component # 8 – Springbok

Module # 3 – Small Antelope

Component # 1 – Duikers

Component # 2 – Steenbok

Module # 4 – Carnivores

Component # 1 – African Wild Dog

Component # 2 – Nile Crocodile

Module # 5 – Birds

Component # 1 – Ostrich

Module # 6 – Veterinary

Component # 1 – Hints for Wildlife Producers
