Survival

Course info and getting started

Are you the type of person who always wants to be prepared for any situation? Do you love learning new skills and improving your ability to survive in tough conditions? If so, then we have the perfect course for you!

In today's fast-paced and unpredictable world, **being prepared for any situation is essential**. Whether you're facing a natural disaster, a medical emergency, or simply need to know how to survive in the wilderness, having the right skills can make all the difference.

Superbly written in a style that combines humour with indomitable spirit, our ex-Special Forces survival instructor turned author will keep you captivated.

Course type

The WildlifeCampus courses are online courses. You can download the course content in **PDF format**, so you do not need to be online to study (you will need to be online to take the tests, though).

There is **one test for each component** of a course. Tests are **multiple choice** and **not written tests**. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**

Duration

Average 3-9 months. There are no deadlines; you may complete courses at your own pace.

Certification

Upon completion of the course, you'll receive an industry-recognised digital certificate demonstrating your commitment to upskilling yourself.

Help

If you need any assistance, please feel free to email us anytime!
