Wilderness navigation

Our wilderness navigation course is perfect for all hikers, trampers, mountaineers, orienteering enthusiasts, outdoor leaders, teachers, scouts, guides, adventure racers, rescue teams and anyone else who ventures "anyplace wild".

Written by master navigator Andrew R Friedemann, this may be the most valuable course you will ever study. Navigation is a skill that anyone can learn; developing proficiency in this ability can save your life and significantly enhance your experiences when venturing into the outdoors.

Course type

The WildlifeCampus courses are online courses. You can download the course content in **PDF format**, so you do not need to be online to study (you will need to be online to take the tests, though).

There is **one test for each component** of a course. Tests are **multiple choice** and **not written tests**. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again**.

Duration

Average 1-3 weeks. There are no deadlines; you may complete courses at your own pace.

Certification

Upon completion of the course, you'll receive an industry-recognised digital certificate demonstrating your commitment to upskilling yourself.
