About WildlifeCampus

WildlifeCampus is an online school specialising in wildlife education and hospitality.

Over the past **25 years**, more than **30,000 students** across **162 countries** have taken our courses, which are considered the most comprehensive online offerings in wildlife, conservation and hospitality education.

We take pride in being leaders in delivering online wildlife education. We provide an authentic and unique e-learning experience, high-quality content, excellent value for money, and exceptional service.

There are no entry barriers, course deadlines, or set semesters. Students are welcome to register and begin any course at any time.

Many WildlifeCampus students have discovered that the knowledge gained from our courses has significantly enhanced their enjoyment of nature. As a result, many have found employment in the wildlife, hospitality, and tourism industries.

Who are our students?

- **Nature enthusiasts:** Gap-year students, scouts, girl guides, and conservationists.
- **Guides and rangers:** Nature guides, field rangers, trails guides, and wildlife reserve managers and employees.
- **Anti-Poaching and security:** Members of Anti-Poaching Units (APUs), as well as security company owners and employees.
- **Hospitality professionals:** Game lodge, guest house, and restaurant owners, managers, and employees.
- **Adventurers and creatives:** Wildlife volunteers, researchers, explorers, travelers, overlanders, filmmakers, and photographers.

Do I need to wait for a semester to begin to register?

No, you may register and begin a course at any time that is convenient for you.

No entrance requirements. Anyone may join!

Any deadlines on the courses?

No, you study in your own time, at your own pace.

How our courses work

WildlifeCampus courses are fully online and self-paced. Each course is divided into modules, with smaller components inside each one. You study **one component at a time**, making it easy to learn in manageable pieces.

All content is available as downloadable PDFs, so you can study offline. **Each component has a multiple-choice test** you complete online. Tests can be retaken until you pass, and there are no deadlines or written assignments.

Entrance requirements

We have a completely open admission policy with no restrictions or barriers. Anyone can register and start any course at any time, regardless of age, prior qualifications, location, disability, or educational background.

Academic support

Full academic support is available. Students are encouraged to contact us at any time by email for any queries or questions they might have.

Duration of courses

Our courses are **completely self-paced**, with no deadlines or pressure. Whether you want to complete a course in a few weeks or take your time over several months, **the choice is entirely yours**. You can study **whenever it suits you**, from **anywhere in the world**, and fit your **learning around your lifestyle**.

Certification and employment

At WildlifeCampus, we believe learning should be open to everyone. No entry requirements, no previous experience, just your interest in wildlife, conservation, or hospitality.

We do not offer accredited qualifications. Instead, we focus on **flexible, skills-based online training** that builds real-world understanding and supports your personal or professional goals.

Our theory courses are respected across the industry and used by students preparing for practical training, volunteer work, or careers at lodges and reserves throughout Africa.

Trusted since 2000, WildlifeCampus offers affordable education; wherever you are, and wherever you're going.

Please note: While our courses can enhance your employability, we **do not** offer job placement services, guarantee employment, or provide immigration or work permit advice for international students.

WildlifeCampus

Learn-Protect-Save

Est 2000

Practical training and theory preparation

There is no single path to working in wildlife, conservation or ecotourism.

Whether you are planning a practical field course, internship, or volunteer placement, **your journey will depend on your goals, location, time, and budget.**

Some students join full-time programs. Others choose shorter or more flexible options through training providers or wildlife volunteer organisations. Many begin with practical experience, then build on it through structured theory. Others do it the other way around.

WildlifeCampus specialises in online learning. Our accessible, self-paced courses support students at every stage, whether you are preparing for hands-on training, reinforcing what you have already learned in the field, or building foundational knowledge before choosing your next step.

WildlifeCampus courses are used by students across a wide range of fields, from guiding and lodge operations to wildlife conservation and tourism. **They are valued** by practical training providers, employers, and volunteers alike **as a reliable and affordable way to build strong theoretical foundations**, deepen knowledge, and prepare with confidence for real-world environments, **wherever your journey takes you.**
