Big Cats of the World

About this course

Our Big Cats of the World course offers a fascinating look into the lives, challenges, and conservation stories of the planet's most iconic predators. While the focus is on wild species such as lions, tigers, leopards, and jaguars, we also explore lesser-known cats, unusual colourations, and the controversies surrounding hybrids and captivity.

Whether you are involved in guiding, conservation, education, tourism, or simply have a passion for wildlife, this course is designed to build your understanding of what big cats are, why they matter, and how their survival is tied to global issues like habitat loss, trafficking, and ethical tourism.

From natural history to real-world case studies, you will gain a well-rounded perspective on these powerful animals and the role you can play in protecting them.

Course type

The WildlifeCampus courses are online courses. All course content is available online but may also be downloaded in PDF format (and easily printed), so you do not have to be online to study.

There are no formal test questions for this course.

Duration

Average 0-1 hour. There are no deadlines; you may complete courses at your own pace.

Certification

If you would like a certificate for completing a free course, it can be redeemed for a processing fee of R250. Upon graduation, we will contact you automatically to offer the option of redeeming a certificate. No need to email us to inform us you are done.
