**Birding by
Habitat**

About this course

Discover the fascinating world of birds with our Birding by Habitat course!

Learn how to identify various bird species and understand the unique habitats they call home, from dense forests to sandy beaches.

By the end of the course, you'll have the skills to recognise birds based on their habitats and confidently plan your next bird-watching adventure, knowing exactly where and when to look.

Whether you're a nature enthusiast, a wildlife lover, or considering a career, this course is perfect for you. Designed with beginners in mind, it's easy to follow while offering plenty of depth to engage even the most experienced birders.

Course type

The WildlifeCampus courses are online courses. All course content is available online but may also be downloaded in PDF format (and easily printed), so you don't have to be online to study.

There are no formal test questions for this course.

Duration

Average 0-3 weeks. There are no deadlines; you may complete courses at your own pace.

Certification

If you would like a certificate for completing a free course, it can be redeemed for a processing fee of R250. Upon graduation, we will contact you automatically to offer the option of redeeming a certificate. No need to email us to inform us you are done.

Help
