

**WildlifeCampus**

**Learn-Protect-Save**

**Wildlife Capture  
and Care**

## About this course

**Our Wildlife Capture and Care Course is the ultimate guide to African game capture, translocation, and temporary captivity.** Designed for both aspiring and experienced conservationists, this course provides in-depth knowledge of the logistical and practical aspects of handling wildlife in the field.

As the perfect follow-up to our Wildlife Management Course, it builds upon fundamental principles to offer advanced insights into the delicate process of capturing and caring for wild animals. Covering a range of techniques, equipment, and real-world scenarios, this course equips students with the expertise needed to ensure the safety and well-being of both wildlife and personnel.

Recognised as one of the most comprehensive and best-written courses ever offered by WildlifeCampus, it is an essential resource for anyone passionate about wildlife conservation, veterinary sciences, or ecological management.

### Price

**R 1,950** (please see our monthly payment plans)

**Payment  
plans**

### Course type

**WildlifeCampus courses are online courses.** You can download the content in **PDF format**, so you do not need to be online to study (you will need to be online to take the tests, though).

There is **one test for each component** of a course. Tests are **multiple choice** and **not written tests**. Students may attempt these tests as often as required until they have passed.

**Once a test is passed, it cannot be taken again.**

### Duration

**Average 0-3 months.** There are no deadlines; you may complete courses at your own pace.

### Certification

Upon completing the course, you will receive an **industry-recognised digital certificate** demonstrating your commitment to upskilling yourself.

### Help

## Contents of this course

### Module # 1 - Ethics of wildlife management

**Component # 1** - Ethics of wildlife management

### Module # 2 - Planning a capture operation

**Component # 1** - Planning a capture operation

### Module # 3 - Chemical capture of wildlife

**Component # 1** - Drugs for the capture of wildlife

**Component # 2** - Drug accidents and responses

### Module # 4 - Drug delivery systems

**Component # 1** - Drug delivery in game capture

### Module # 5 - Non-mass capture techniques

**Component # 1** - Non-mass capture of game

### Module # 6 - Mass capture techniques

**Component # 1** - Capture nets

**Component # 2** - Plastic boma method part 1

**Component # 3** - Plastic boma method part 2

**Component # 4** - Drop boma method

**Component # 5** - Animal/boma dynamics

### Module # 7 - Capturing large herbivores

**Component # 1** - Capturing elephant

**Component # 2** - Capturing rhinoceros

**Component # 3** - Capturing giraffe

**Component # 4** - Capturing buffalo and hippopotamus

### Module # 8 - Capturing plains game

**Component # 1** - Large antelope and zebra

**Component # 2** - Small to medium antelope, warthog and ostrich

### Module # 9 - Capturing carnivores

**Component # 1** - Carnivore capture

---

## Module # 10 - Game translocation

**Component # 1** - Transportation crates

**Component # 2** - Specialised vehicles and equipment

## Module # 11 - Helicopters

**Component # 1** - The use of helicopters as a capture tool

## Module # 12 - Transportation logistics

**Component # 1** - Loading, transport and unloading of animals

## Module # 13 - Temporary captivity

**Component # 1** - Bomas for capture and release

**Component # 2** - Specialised temporary facilities

**Component # 3** - Boma management
