Delivery and assessment of ONLINE courses

All course content is available **online** but may also be downloaded in PDF format (and easily printed) so you don't have to be **online** to study.

All assessment is delivered entirely **online** and is automated. The assessment which we've called "take the test" (top right in each component) consists of between 10 and 30 true/false and multiple-choice questions. There is one test for each of the components of a course. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**
