# Digital wildlife photography

## Course info and getting started

Our Digital Wildlife Photography Course concentrates primarily on upskilling you to produce consistent, high-quality wildlife photographs.

Applicable to novices, dedicated enthusiast and semi-professional, this course is a **must** for those wanting to learn how to take that special shot; for those seeking to avoid the disappointment of mundane results by converting their ordinary photographs into extraordinary captures of that unique moment in time.

Specifically commissioned and written for WildlifeCampus by Professional Wildlife Photographers, Andre Nel and Dan Myburg and, in our opinion, will be worth every cent for the enormous satisfaction you'll gain by producing exceptional wildlife photos.

### Course type

**The WildlifeCampus courses are online courses.** You can download the course content in **PDF format**, so you do not need to be online to study (you will need to be online to take the tests, though).

There is **one test for each component** of a course. Tests are **multiple choice** and **not written tests**. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**

### Duration

**Average 0-3 months.** There are no deadlines; you may complete courses at your own pace.

### Certification

Upon completion of the course, you'll receive an industry-recognised digital certificate demonstrating your commitment to upskilling yourself.

### Help

If you need any assistance, please feel free to email us anytime! [info@wildlifecampus.com](mailto:info@wildlifecampus.com)

We also have a **WhatsApp line** (office hours only): **069 177 9345**

## How to get started?

### 1 Register

Register on our website  
[www.wildlifecampus.com](http://www.wildlifecampus.com)  
(Register top left)

Or

Click here

### 2 Purchase cash price
