Game ranch economics

Course info and getting started

This course examines the trends toward game ranching, the upfront costs, ongoing revenue and expenditure, infrastructural expenses, profitability trends and profit drivers of game ranching. Its concluding module investigates conservancies, game management, and the ethics of running a successful, profitable, sustainable game ranch.

Applicable to the dedicated wildlife enthusiast, prospective game farm investor and current game ranch owner, this course is a must for those seeking the realities of starting and running a game farm, game ranch or conservancy.

Course type

The WildlifeCampus courses are online courses. You can download the course content in **PDF format**, so you do not need to be online to study (you will need to be online to take the tests, though).

There is **one test for each component** of a course. Tests are **multiple choice** and **not written tests**. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**

Duration

Average 0-3 months. There are no deadlines; you may complete courses at your own pace.

Certification

Upon completion of the course, you'll receive an industry-recognised digital certificate demonstrating your commitment to upskilling yourself.

Help

If you need any assistance, please feel free to email us anytime!
