Radio Communication for Field Staff

About this course

Our Radio Communication for Field Staff course teaches how to use two-way radios clearly, safely, and professionally in wildlife, conservation, and lodge environments. Whether guiding guests, patrolling remote areas, or coordinating lodge operations, radio communication is an important tool for daily teamwork and safety.

Students will learn how to operate different types of radios, follow structured protocols, manage emergencies, and maintain professionalism on shared channels. The course includes real-life scenarios, communication drills, and tips for improving confidence and clarity on the radio.

Perfect for guides, rangers, lodge staff, and volunteers working in nature-based settings, this course supports safer, smoother, and more effective field operations.

Course type

The WildlifeCampus courses are online courses. All course content is available online but may also be downloaded in PDF format (and easily printed), so you don't have to be online to study.

There are no formal test questions for this course.

Duration

Average 0-3 hours. There are no deadlines; you may complete courses at your own pace.

Certification

If you would like a certificate for completing a free course, it can be redeemed for a processing fee of R250. Upon graduation, we will contact you automatically to offer the option of redeeming a certificate. No need to email us to inform us you are done.
