**Reptiles of
the Lowveld**

About this course

Our Reptiles of the Lowveld course offers an in-depth exploration of 89 unique reptile species endemic to South Africa. Learn about the fascinating world of these reptiles as we cover their identification, classification, characteristics, reproduction, physical descriptions, and distribution across the Lowveld region.

Written for enthusiasts and those seeking a thorough understanding, this course offers insights into the diverse reptile populations that thrive in one of South Africa's most captivating ecosystems. Explore the wide variety of species and gain a deeper appreciation for their ecological significance in the Lowveld region.

Course type

WildlifeCampus courses are online courses. You can download the content in **PDF format**, so you do not need to be online to study (you will need to be online to take the tests, though).

There is **one test for each component** of a course. Tests are **multiple choice** and **not written tests**. Students may attempt these tests as often as required until they have passed.

Once a test is passed, it cannot be taken again.

Duration

Average 0-3 weeks. There are no deadlines; you may complete courses at your own pace.

Certification

If you would like a certificate for completing a free course, it can be redeemed for a processing fee of R250. Upon graduation, we will contact you automatically to offer the option of redeeming a certificate. No need to email us to inform us you are done.

Help

If you need assistance, please feel free to email us anytime!
