Reptiles of the Lowveld

Course info and getting started

This course was written by renowned expert and snake handler in this field, **Ian Dewsbury**. It covers the identification, classification, characterisation, reproduction, description and distribution of 89 species of reptiles endemic to South Africa. It has been designed for those who want a good overview of the subject.

Course type

The WildlifeCampus courses are online courses. You can download the course content in **PDF format**, so you do not need to be online to study (you will need to be online to take the tests, though).

There is **one test for each component** of a course. Tests are **multiple choice** and **not written tests**. Students may attempt these tests as many times as required until they have achieved the passing mark. **Once a test is passed, it cannot be taken again.**

Duration

Average 1-3 weeks. There are no deadlines; you may complete courses at your own pace.

Certification

This course is **free for students to access and complete** after registering on our website. However, if required, a digital certificate may be redeemed at a cost of **R 250** per free course. Upon graduation, we will automatically contact you with the option to redeem a certificate or not. *** Redeeming a course certificate is optional, not compulsory.**

How to access

YOUR FREE COURSES

#01

REGISTER

It's free! Visit:
www.wildlifecampus.com

(Top left)

#02

LOG IN

Log in and go to your "my courses" page. Here, you will see the full list of ALL the online courses we offer – including a FREE component in each, for you to view and try – no certificates are issued for completing free components.

#03

SCROLL DOWN

Scroll down to the free courses (closer to the bottom of the list). Click open a course and begin!

Full instructions on how to complete the course/s will be found on the very first pages of each course.
